PRICE TWO CENTS

REVOLT IS SPREADING

SITUATION IN CUBA IS DARKER THAN AT ANY TIME SINCE REBELLION BROKE OUT.

PRISING IN EASTERN CUBA

COULD BE WORST CALAMITY OF ALL TO BEFALL THE PRESIDENT GOVERNMENT.

Havana, Sept. 1.—The situation is darker than at any previous time since the insurrection broke out. News of an uprising in Santiago province, hitherto not yet published here, is spreading about the city and causing the gravest concern. When Mr. Pease, the American charge d'affaires here, was told the contents of the Associated Press Santiago dispatch he endeavored to verify it through the state department, but was told that it was untrue. Subsequently the dispatch was verified from private and newspaper sources. The extent of the rising in Santiago is not known, but it is the opinion here that the worst calamity of all to the Palma government would be an insurrection in Eastern Cuba.

The Associated Press was informed by two eye witnesses that Cardenas, hitherto has been considered a peaceful city, was the scene Thursday of desultory fighting between police and rural guards on the one side and insurrectionists on the other.

The only province remaining perfectly peaceful is Puerto Principe. Americans having cattle interests here are apprehensive lest it, too, become the field of insurrectionary operations.

The Associated Press correspondent at Cienfuegos telegraphed Friday night that there are 2,000 armed insurrectionists in that vicinity and that all the small towns in Santa Clara province are controlled by insurgents, who attack and loot trains and seize the property of foreigners as well as of Cubans.

Trinidad is surrounded by insurgents, and the government appears powerless to protect the property of Americans and other foreigners. Railway trains are held up at will and passengers searched. The Cuban Central railway has declined to assume responsibility for the safety of passengers or freight.

Recruiting for government forces is making good progress here and the government continues to make headway wherever there is open fighting.

Unable to Catch Guerras.

The troops in the western portion of Pinar del Rio province have not yet come up with Pino Guerra, and, according to the Associated Press correspondent with the troops, there is no present likelihood of their doing so, as the troops might march for ten days and all the while Guerra would still be just ahead of them in the hills.

If Guerra cared to harass the gov-

ernment the latter's troops could be killed off by sharpshooters. The government has no cavalry in Pinar del Rio, and the only real soldiers are the artillerymen, but as they are afraid they cannot cope with the well mounted insurgents. Guerra does not want to fight. His scouts can always be seen at a distance from the government line of march. The correspondents report more looting by Guerra's men.

Americans who come to the legation to ask for the protection of their property are answered by an immediate call upon the government of Cuba, which promises to do the best it can for them.

There are many rumors in circulation as to what may happen Sept. 15 unless a new election is granted.

To add to the general apprehension, the American protestant missionaries of Havana, who are in general charge of the field, say that reports from missionaries outside of Havana are practically unanimous in stating that the insurrection is sweeping all the country districts in the western half of the island.

The increasing gravity of the situation has revived discussion of the possibility of intervention by the United States.

La Discusion, the semi-official organ of the administration, in an editorial calls upon Cubans to lay down their arms and save the republic from the danger of intervention. The article appeals to the patriotism of the people, depicting the results of intervention, as follows:

"Permanent intervention would be worse than death. It would be preferable if the Caribbean should engulf the Pearl of the Antilles."

The article makes an appeal to racial sentiment, saying Americans hate negroes and that in the event of intervention, the Cuban black man's lot would be a sorry one.

President Palma was asked by the Associated Press to give his view of the situation and whether he believed there was a possibility of arranging a peace with the insurgents in a manner acceptable to the movement. He replied:

"I regard the present time as inopportune for making a statement for publication, but perhaps in a day or two or within a short time I may give you my views."

ROSEWATER IS DEAD

NOTED EDITOR OF THE OMAHA BEE PASSES PEACEFULLY AWAY WHILE ASLEEP.

Omaha, Sept. 1.—Edward Rosewater, proprietor and editor of the Omaha Bee and prominently identified with the political, financial and business affairs of Omaha and the state of Nebraska for forty years, was found dead in district court room No. 6, on the third floor of the Bee building, early in the morning. Mr. Rosewater had evidently sat down on a bench in the courtroom and fell asleep and died of heart failure.

Mr. Rosewater went to Waterloo, Neb., Thursday afternoon, where he made a speech at a Grand Army picnic. He reached Omaha on his return at 7 p. m. and went to his office in the Bee building immediately. He is known to have been in his office during the evening, but was not seen by members of his family after returning from Waterloo. It was the habit of Mr. Rosewater to go to different parts of the building whenever his pleasure so indicated and it is presumed he stepped into the large courtroom and sat down for a minute's repose and fell asleep.

The death of Mr. Rosewater, coming thus suddenly, was a shock to the people of Omaha, and immediately it was known extra papers announced the death to the public.

Dr. Rosewater attributed the sudden death of his brother to the results which followed the excitement attendant on a long campaign in which Mr. Rosewater was a prominent candidate for the nomination by the Nebraska state convention for United States senator.

Edward Rosewater, founder and editor since 1871 of the Omaha Bee, was born at Bukovan, Bohemia, in 1841. He came to the United States in 1854 and began work as a telegraph operator when eighteen years old.

BUILDINGS DYNAMITED.

Two Persons Injured by Explosion at Armourdale, Kan.

Kansas City, Mo., Sept. 1.—At Armourdale, Kan., early Friday a store occupied by Arnold Lieberman and two dwellings were destroyed, the result of an explosion, at first supposed to have been due to leaking natural gas. Two persons were injured. It developed later that the building was not piped for gas and that the explosion probably resulted from dynamite. The police are looking for Lieberman, who has disappeared.

WILLIAM J. BRYAN'S VISIT TO CONNECTICUT IS CROWDED WITH HARD WORK.

DELIVERS FOUR ADDRESSES

ALSO ATTENDS TWO RECEPTIONS AND SHAKES HANDS WITH MANY ADMIRERS.

New Haven, Conn., Sept. 1.—The visit of William J. Bryan to Connecticut Friday must have strongly reminded him of the strenuous days during his presidential campaigns, for he delivered four addresses, each of considerable length, attended two receptions and was the center of handshaking bees whenever his admirers could reach him. All this was crowded between noon, when he reached this city, and the hour of his retirement at night as the guest of Former Senator Archibald McNeill of Bridgeport.

Everywhere he was heartily received, although there was an absence of street demonstrations both here and in Bridgeport. His audiences at times were wildly enthusiastic, especially at the noon luncheon here.

The features of the day were the luncheon and the conference of New England Democrats. At the former Mr. Bryan was welcomed to the city and state with a cordiality that for warmth has seldom been extended to a visitor and at the latter he stood before a representative body of New England Democrats and with great earnestness spoke of the problems which the party must face in the coming campaign. Mr. Bryan said in the course of this address that New England never had been a "good breeding place for Democracy; Jefferson had never considered it so; neither did Jackson."

Pleaded for Harmony.

Surrounded by representatives of every state in New England, Mr. Bryan pleaded for harmonious and concerted action by the Democrats of these states during the next two years. The conference will be followed by others for the purpose of spreading Democracy through the New England states.

A delay at the start of Mr. Bryan's trip caused an overlapping of the three meetings here, to the disappointment of many. The mass meeting on the green had to be started before the luncheon was actually over.

The chief change in the programme here was the inclusion of ex-Governor Garvin of Rhode Island as one of the other speakers after the address he had prepared for the luncheon had been ruled out as being out of place at a strictly nonpartisan gathering, the change being made at the last moment. Mr. Garvin spoke at the luncheon, however, paying tribute to the uprightness of Mr. Bryan.

Mr. Bryan went from New Haven to Bridgeport, arriving there shortly before 6 o'clock p. m., going to the home of Mr. McNeill for dinner, and later speaking. Both of his main addresses were along lines of his address at Madison Square Garden Thursday night, touching on issues he has declared to be of paramount importance at this time.

Mr. Bryan at night spoke in Bridgeport on the trust, tariff and labor questions.

For an hour he assailed the Republicans on their attitude toward public questions. He said the Republican party had had a chance to repeal every law that has not contributed to the peace, happiness and prosperity of the people, but failed.

Discusses Tariff Question.

On the tariff question he said the policy of the Republican party had contributed to the present unrest and there was no promise of reform. The high tariff is made by the manufacturers. Its blessing does not prevent the party members from threatening its overflow, but the men who made the tariff now demand their blood money. Moreover, the tariff has antagonized every other nation. It makes them raise barriers. Germany was overjoyed at the beef scandals. It was said there of the United States "If you don't let us sell to you, we won't buy of you." In England two years ago, during a great discussion of the fiscal question, the doctrine of retaliation was advocated."

Mr. Bryan referred to the last speech of President McKinley, which was a plea for reciprocity, and said that since the death of the lamented president his party had absolutely failed to heed that advice.

"My friends," said Mr. Bryan, "there is a great revolution in the Republican party. Ten years ago the Republicans said they could go out in-

to the states and pick up a man anywhere who could be elected president; six years ago they said there were hundreds who could be elected; today they say there is only one man who can be elected on a Republican platform, and that man has been following Democratic principles. Is there any lesson in that?"

In the course of his discussion of the trust question, Mr. Bryan said he held the opinion that President Roosevelt had not lived up to his opportunities in prosecuting the trusts.

LAWYERS HAVE A GOOD TIME.

Members of American Bar Association Enjoy a Banquet.

Minneapolis, Sept. 1.—With a big symphony orchestra on the stage booming Wagnerian crashes and a double quartet of young lawyers supplemented by a piano in the other end of the Minneapolis Auditorium, singing college songs and other popular airs, staid lawyers and dignified judges laid aside their dignity and had a good time and thus came to an end the twenty-ninth annual meeting of the American Bar association, which has held forth in St. Paul during the past three days.

The banqueters sat at small tables on the Auditorium main floor, while their wives and invited guests occupied seats in the balconies.

Governor Johnson was the first speaker, his subject being "The State of Minnesota." The governor told them how glad he was to have the learned men of the bar come to this great state and said a number of complimentary things about lawyers.

Judge Alton B. Parker, now President of the American Bar association, responded to the toast "The Judiciary." P. B. Mignaut, K. C., on "The Montreal Bar;" John A. Dryden told of the past joys of the "Free Press;" M. B. Koon, "The Minnesota Bar;" L. R. Wilkey, "Our Judiciary in the Orient;" T. C. Hume spoke of the tribulations of the "Young Lawyer," and John Allen gave a rambling and witty dissertation on the all-embracing topic of "Thoughts and Things."

The new officers of the association, elected at the session in St. Paul, are: President, Alton B. Parker; secretary, John Hinkley, Baltimore, Md.; treasurer, Frederick E. Wadhams, Albany, N. Y.

FALL AND WINTER BUYING.

Stimulated by Definite Assurance of Large Crop Yields.

New York, Sept. 1.—Bradstreet's review of trade says better weather and definite assurance of large crop yields stimulate fall and winter buying, which is apparently at or close to its zenith. Most leading markets report buyers present in unprecedented numbers, and the volume of August sales exceed all records for that month, except at a few points where weather conditions have been unpropitious. Sales of dry goods, clothing, shoes, leather, hardware and other iron and steel products and lumber are very large. The fall shipping season is also apparently at its height, and the railroads are working to their full capacity, with a car famine predicted for the not far distant future. A smaller movement of winter wheat has partly relieved the strain on the railroads and made for a little more steadiness in price of that cereal, which, however, has sagged slightly as the feeling grows that spring, like winter, wheat, will prove a large crop.

FOR ADMINISTRATION TICKETS.

Bishop McCabe Favors Those of the Mutual and New York Life.

New York, Sept. 1.—A letter from Bishop Charles C. McCabe of the Methodist Episcopal church, addressed to Alton B. Parker, chairman of the executive committee of the international policyholders' committee, urges the committee to adopt the administration tickets of both the New York Life Insurance company and the Mutual Life Insurance company.

The bishop expresses disapproval of an address issued by the committee in which attacks were made on the management of the New York Life Insurance company and the Mutual Life Insurance company. He says this address was sent to policyholders with his name appended to it but the address was never submitted to him and he protests against the further expression in the name of the committee of opinions and accusations with which he has no sympathies and which he is convinced have no sufficient justification in fact.

Great Lakes Training Station.

Washington, Sept. 1.—Acting Secretary Newberry has approved the plans for the buildings to be erected at the naval training station on the Great Lakes. This station is located at Lake Bluff, about thirty miles north of Chicago.

Politician Commits Suicide.

Kansas City, Sept. 1.—James C. Van Pema, aged fifty, a well known Democratic politician, committed suicide Friday by shooting. He had been despondent over financial affairs.

DIRECTORS IGNORANT

TRANSPORT SHERIDAN ASHORE.

Vessel in Dangerous Position With Many Persons on Board.

Honolulu, Sept. 1.—The United States army transport Sheridan is ashore on Barbers Point, the southwestern extremity of the island of Oahu, on which Honolulu is located. The second officer of the Sheridan has come ashore. His boat was swamped in the breakers, but her crew landed safely. Captain Peabody has signalled the steamer Claudine to take the Sheridan's passengers to Honolulu.

At 6 o'clock p. m. it was thought that many if not all the Sheridan's passengers would be obliged to spend the night aboard the steamer. Only two boats have reached shore and one of these was badly smashed in the surf.

The position of the Sheridan is very serious, but it is possible that she will be floated early in the morning. Captain Peabody is quoted as having assumed all responsibility for the accident, saying that the vessel was in too close.

The Sheridan has aboard 125 through-passengers and 50 soldiers.

OFFICE IN NEW YORK CITY.

Headquarters Established by the Cuban Junta.

New York, Sept. 1.—In an office building at Pine and Water street the Cuban junta established offices Friday. Colonel Aguerre, Major General Jose A. Castellancy and Senor Nordose, who will be the official representative of the revolutionary movement here, were present.

Colonel Aguerre says the junta in New York was not to be used for the purpose of actively supporting the armed forces of the revolution. Its efforts, he said, would be directed solely to keeping the American people informed as to the true course of the movement.

MAY END THE STRIKE.

All Disputed Points May Be Submitted to Arbitration.

San Francisco, Sept. 1.—There is a favorable outlook for a settlement within the next twenty-four hours of the strike on the United Railways. President Calhoun of the corporation and his assistant, Thornwell Mullaly, held a long conference with Mayor Schmitz. The outcome of this meeting was the authorization of the mayor by President Calhoun to offer arbitration of all disputed subjects to the carmen. Mr. Calhoun insisted, however, that the strikers must first return to work. Officials of the union issued a call for a mass meeting to take action on Calhoun's offer. Mayor Schmitz thinks the end of the strike is near.

Reform Not Popular.

London, Sept. 1.—The Daily Mail's correspondent at Teheran asserts that the bulk of the population is offering strong and united resistance to all attempts at reform.

BIG RUSH FOR THE TWIN CITIES

Unprecedented Crowds Pass Through Brainerd on Their Way to the Fair

75 TICKETS WERE SOLD HERE

M. & I. Crowded to the Doors And Duluth Train Brought Many for the Cities

The rush for the twin cities is unprecedented, for the opening of the fair. Usually the big sale of tickets is on the first day of the fair, but it commenced this morning. There was one ticket sold from Brainerd last night and 42 this morning. There were about 75 sold at the close of business this afternoon and a large sale is anticipated for tonight, as a number of clerks and shop men will go down tonight and back Monday night so as not to lose any time. They will be able to put in a full day at the fair and see the fast races.

The M. & I. had an extra coach and there was not standing room and there were many came in from the east who changed here for the cities. Two extra coaches were put on the noon train and it was found they would not accommodate the crowds and a third was added, making five well filled coaches.

When it came to trying to get even an approximate list of the Brainerd people who went down today noon, it was simply impossible. The reporter nearly broke his neck trying to get into the cars and lost his notebook and his temper trying to get out.

STRAY LEAVES

From a Reporter's Note Book.

The reformed spelling movement has received a decided boost by the order that all the work of the Government printing office shall be in accordance therewith. The most noticeable feature is the spelling of words ending with ed and pronounced "t" with a t, for example "drest" for dressed, "prest" for pressed and the like. One advantage of this would be that it would prevent the careless dividing of such words on the "ed," which is just as radically wrong as any misspelling could possibly be.

In speaking of the great amount of sickness among children this season a prominent doctor remarked that in many places it was caused simply and solely from lack of good ventilation. The mothers remained in the house so constantly in trying to care for their little ones that they did not realize the foulness of the air even when it would almost stagger one not used to it. He also stated that some mothers who would resent the imputation of lack of love for their little ones would give them sour feed and permit the use of sour bottles when it was just as poisonous to the little one as a dose of strychnine.

This is the time of year when the man who has kept one or more dogs the entire year to the detriment of his own or his neighbor's garden gets his money back.

BRAINERDITES ABROAD

Daily Ontario Tells of Meeting Prof. Graham and Luke O'Neil in Belleville.

"It looked very much like an old boy's reunion in this city yesterday. First one bumped into Luke O'Neil. Mr. O'Neil went to Brainerd, Minn., seven years ago and is doing well. Later came a meeting with Prof. W. Graham, of Brainerd, Minn., and James Barrett, of Brooklyn, N. Y., son and son-in-law of ex-Alderman Graham. Prof. Graham has had a varied experience. An expert cornet player, he left home at an early age and after playing with many traveling companies, settled down for a time as leader of the orchestra in one of San Francisco's leading theaters. He came home later and married Miss O'Neil, of Thurlow, and is now a prosperous music dealer in Brainerd."

AMUSEMENTS

The Maid and the Mummy.

The "Polly" song in Richard Carle's merry musical piece, "The Maid and the Mummy," which will be the opening attraction of the season at the Brainerd opera house, Thursday, Sept. 6, is a distinct novelty. It is sung by Earl Dewey assisted by a bevy of beautiful girls in striking costumes. The story tells how a man after falling in love with Polly transferred his affections in turn to Molly, Betsy, Dolly and Celia, but finally discovered Ophelia was the real object of his affections. The girls come on the stage singly, with parti-colored lights, and the effect is both novel and pleasing. The "Polly" song is only one of a dozen catchy, tuneful song hits that will be presented with dance accompaniment in "The Maid and the Mummy," when that merry musical melange is presented here.

At the Bijou.

The bill for Monday, Tuesday and Wednesday of next week is something extra special. "The Peace of Arabian Nights," in 25 dazzling beautiful scenes will be first on the program. This is a reproduction of a great pantomime at the theatre Robert Houdin, Paris.

The Olympic games at Athens Greece will also be shown. Also other pictures and special musical numbers.

Parsifal

It is a singular fact, but nevertheless a true one, that not one of the many high priced and famous artists of the world that annually appear in the performances of "Parsifal" and other works given at Wagner's Festival theatre in Bayreuth, receive one penny in payment of their valuable services. They simply are guests of the management. Frau Cosima Wagner, and her talented son, Siegfried. During Wagner's life the same custom prevailed. These artists esteem it a great favor when selected to appear, and much rivalry is engendered in their endeavors to obtain the coveted honors. The profits derived from the performances are used in maintenance and improvement of the theatre and spacious grounds surrounding it; the surplus, if any, being devoted to charitable purposes. This great opera will probably be presented in the Brainerd opera house the coming season.

A CHICKEN SUPPER FOR EIGHT

Merry Party to Have Banquet at Ideal After Their Return Tonight

Brainerd is mighty quiet today and it would be a poor day for a political candidate or census taker to strike the town. Those who did not go to the twin cities today to take in the big fair and see Dan Patch and Creceus pace Monday have gone hunting. The man who has a good hunting dog is the most popular fellow imaginable and the neighbor that has been cussing the dog (behind the owners back) all summer is now negotiating for a chance to shoot behind it. Many parties went out last night to be ready for the early morning shooting.

A merry party went out south by team this morning and expect to return tonight. There were eight in the party and it has been arranged to have a chicken supper at the Ideal Cafe after their return tonight. The party was composed of Geo. Moody, W. T. Larabee, Bert O'Brien, F. J. Murphy, A. P. Cardie, Bert Parker, and Henry Spalding.

OVER KILLING OF POACHERS.

Japanese Public and Press Greatly Excited.

Victoria, B. C., Sept. 1.—The steamer Tartar, which has arrived from Japan and China, brought news that the killing of the five Japanese seal poachers in the raid at Pellyoff islands had caused great excitement in Japan and the press is devoting much space to the discussion of the affair.

The Tartar also brought news that the Japanese government proposes to subsidize a steamship line to connect Dally with the North Pacific coast of the United States and also Ssangai, Dally and Vladivostok in its general scheme to develop Manchurian trade. The South Manchurian railway company, practically a government concern, will spend \$5,000,000 without delay in constructing steamers in Japan for this purpose and arrangements have been made for a total expenditure of \$50,000,000 for the improvement of the railway system between Dally and Changchun, Manchuria.

CYCLONIC DISTURBANCE.

Reported to Be Prevailing East of Barbadoes.

Washington, Sept. 1.—The weather bureau announces that a disturbance of cyclonic proportions is prevailing east of Barbadoes. The cable report from the observation station at Barbadoes is brief and as there are no reports from the other stations in the West Indies the weather bureau is unable to determine the future course of the storm nor its intensity. Reports locating the storm and its extent are expected to reach here within a few hours.

The weather bureau in its forecast shows that the fall of 14.36 inches of rain in this city during August broke all records for Washington and in a general reference to the remarkable persistency of heavy rains throughout a large part of the East and South says they were due to "abnormal distribution of barometric pressure" and the indications now are for more normal conditions.

SKIDDOW SPRINGS A SURPRISE.

Oshkosh Yacht Wins Fourth Heat of Regatta.

Oshkosh, Wis., Aug. 31.—Skiddow, the representative of the Butte des Morts Yacht club of this city, sprung a surprise on the inland lake fleet Thursday afternoon by winning the fourth heat of the Class A boats of the annual regatta and doing it in a decisive manner. Skiddow defeated Troubadour, the White Bear vessel, by a minute and a half and finished two minutes ahead of Minnetonka. Pats II, the Lorimer boat of Pistakee, was the only other boat whose time was taken at the finish. Pats II was 27 minutes behind Skiddow. Glyndwr was given fifth place.

There will be one more race. Troubadour has the championship and the Norton cup won even if she should fail to get place. The final heat, however, will be necessary to decide second place honors as among Skiddow, Glyndwr and Minnetonka.

In the Class B race in the Inland Lake regatta, Gopher of White Bear won after one of the prettiest contests of the week. Ohlyosa, the Minnesota rival, was second; Twenty-three of Oshkosh was third and Terrier II was fourth.

SCENE FROM THE "MAID AND THE MUMMY"

The Harvest Fields of America Grow the richest barley crop in the world, and barley, remember, is a substantial food—a standard cereal (like wheat and oats and rye). It is the foundation and back bone of

Gund's Peerless Beer

Pure, natural juices of the barley and hops are combined by the famous "Gund Natural Process" into a fermented malt beer, whose fine fragrance and rich strengthening food qualities won for it the gold medal of highest excellence at Paris, 1900, and for commanding superiority at St. Louis Exposition, 1904.

"Beer is liquid bread." This is an ancient German saying and is true in the most literal sense of "Peerless." Try it and see. It will quench your thirst, give you strength, promote digestion, satisfy your palate and enrich your blood. Sparkling, wholesome, snappy and delicious. Bottled at brewery only. Sold everywhere. A favorite home beer. Send in a trial order for a case delivered at your door. Telephone, write or call. Ask for it at places of public resort if you want something better than common brews.

WHITE BEAR BOATS WIN.

Troubadour and Gopher Capture Cups at Oshkosh, Wis.

Oshkosh, Wis., Sept. 1.—Troubadour and Gopher, both of the White Bear, Minn., Yacht club, are champions in Class A and B respectively of the Inland Lake Yachting association. Skiddoo of the Butte des Morts (Oshkosh) Yacht club takes second honors in Class A and Glyndwr of the Oshkosh Yacht club, winner of the championship a year ago, is a close third.

Twenty-three of the Lake Butte des Morts Yacht club takes second honors in Class B, being but fourteen points behind the leader, Terrier II. of the Minnetonka Boat club is third, but is 100 points lower than Twenty-three.

The ninth annual regatta of the Inland Lake Yachting association came to a close Friday. The final ceremony was the presentation of the cups at the clubhouse. Troubadour and Gopher take away from this city more cups and trophies than it has been the lot of a brace of yachts ever before to win in so short a period. Each has a total of six cups.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c.
